

Wikipedia describes hope as “the emotional state which promotes the belief in a positive outcome”... the belief that “events will turn out for the best.” Hope makes tough times bearable and good times even better. It is a necessity in life and it is what God consistently offers us. One Bible verse even refers to God as “the God of hope.” Come and bring a friend as we continue this message series!

Hope in God’s Salvation

God’s salvation is:

#1 Connected to scary moments.

☀ We will experience more of God,
when we use fear as a friend.

#2 Accomplished by His power.

☀ When it comes to experiencing salvation,
God’s efforts get all the credit!
