**Bridge Builders Christian Mediation**, [www.ChristianMediate.com](http://www.ChristianMediate.com), (503) 770-0282

**Christian Mediators** "Think of us as conflict fire fighters. When everyone else is running out of the building on fire (the raging conflict), we are running in." A mediation source with local offices covering the issues of marriage and family, church relations, business, non-profits, elder care and divorce:

**The Peacemaking Marriage** (by Doug Marshall, Mediator and Wilsonville Pastor) Have you ever been in conflict with your spouse? "Are you kidding?" Have you ever had to forgive them? "You mean put up with them?" Have you ever had to admit wrong? "I hate it when that happens." Have you ever had to negotiate with your spouse? "What's a negotiation?" These activities are basic to sustaining any relationship and are also a few of the primary steps to "Peacemaking." ... [Click to continue](#)

## **BOOK RECOMMENDATION**

**The Pastor's Family**, by Brian and Cara Croft. Pastoral ministry can be a uniquely difficult calling not only for a man, but for his wife and children as well. The greatest challenge the pastor faces may well be his internal desires for approval, appearance, and success. Once he places these expectations upon himself, they will inevitably come to control him and dominate his decision-making so he may neglect his family in favor of ministry. In *The Pastor's Family*, Brian and Cara Croft call a pastor to the task of shepherding his family through the challenges of pastoral ministry, for if the pastor is not first the shepherd of his own family, he is unfit to shepherd God's people. This is a book for a pastor and his wife to read together, with much prayer and with many open discussions.

**The Secrets of Surviving Infidelity** by Scott Haltzman, MD. Released in April to rave reviews: "Rebuilding trust after an affair is not easy and requires a special kind of support and clear guidance. Scott Haltzman can show you the way. Taking the time to read this book will change your life." (John Gray, Ph.D., author); "This isn't just a supremely helpful book on understanding—and recovering from—infidelity. It's a great book on marriage. The honest, warmhearted, and wise insight Scott Haltzman provides here can bring you hope and much more—a path forward. This is the book you are looking for right now." (Scott Stanley, Ph.D., author and researcher); "Scott Haltzman gets down to what's needed: the nitty-gritty details of how to define infidelity, how to end it, and how to recover. The book is so good that it's also a great how-to-avoid-it manual that all married folks should read long before infidelity is even on the horizon." (Diane Sollee, M.S.W., SmartMarriages.com)

**Remarriage issues are very different from first marriages.** A new book, 'The Remarriage Blueprint' by Maggie Scarf, focuses on the obstacles that seven remarried couples faced in combining families, bank accounts and daily routines. In her book, Scarf cites research that shows 40% of new marriages include one previously-married partner. She discusses challenges in remarriage and the forces that make the new partner an "outsider," from children and parenting tasks that put the couple at odds to the uniting of disparate family cultures. **Swimming in the Blended Family Ocean.** Remarried couples – and especially those with children – swim in a different ocean than first-marriage couples. The water temperature can be a little cooler – trusting a spouse can be a challenge after you've been hurt in a previous relationship. There are unique under-currents – most everyone in the stepfamily has experienced a loss that is always just under the surface, influencing everyday interactions. They run into a few more sharks – think of loyalty conflicts and ex-spouses. (by Ron L. **Broken Marriage, Broken Church, New Beginnings.** One of the greatest needs among church planters is emotional support, especially in their marriages. Justin and Trisha Davis know that reality all too well. In 2005, three years into a growing church plant in Indianapolis, Justin had an affair with a woman on his staff who happened to be Trisha's best friend. Although the church plant had launched under the watchful eye of two local, contributing churches and Justin met with accountability partners weekly, his fall was inevitable, he says, because his first mistress was the church herself. ### **DISTRESS AND DIVORCE / RESTORATION**

**Grounds for Biblical Divorce.** Today, I try to interpret the Bible's teachings on divorce - and there are many - as a selection of godly principles. With this approach, I find the Scriptures full of help which provides much truth to work with in helping hurting people. No two marriages are alike. Each needs individual attention. Any decision to divorce - or to recommend it - comes only after a careful consideration of a multitude of factors. Prayer and seeking God's will in every situation is essential. **What I Wish I'd Known Before I Got Divorced** A recent study by the Institute for American Values asked, "Does divorce make people happy?" They found that those who ended their troubled marriage in divorce weren't any happier than those who remained married. In fact, two-thirds of those who stayed married reported happy marriages five years later. **Is Divorce Contagious?** A research team at Brown University analyzed three decades of data on marriage, divorce and remarriage. **Breaking Up is Hard to Do, Unless Everyone Else is Doing it Too: Social Network Effects on Divorce in a Longitudinal Sample.** Divorce represents the dissolution of a social tie, but it is also possible that attitudes about divorce flow across social ties. To explore how social networks influence divorce and vice versa, we exploit a longitudinal data set from the long-running Framingham Heart Study. The results suggest that divorce can spread between friends. Clusters of divorces extend to two degrees of separation in the network. Overall, the results suggest that attending to the health of one's friends' marriages may serve to support and enhance the durability of one's own relationship, and that, from a policy perspective, divorce should be understood as a collective phenomenon that extends beyond those directly affected. (Rose McDermott, PhD, Brown U; James H. **Millennials and Marriage.** Young Americans have come to believe that they can only achieve "good" marriages through professional success and economic prosperity.

It's a cold, sleety Minnesota day, and I'm in a classroom with 25 undergraduate students, talking about marriage. This discussion is the culmination of a mini-unit in which (among other things) we examined sociological data showing worrisome marital trends in America. We discussed how various social problems, particularly among the poor, might be ameliorated through a strengthening of marriage. Charles Murray's portrayal of "Fishtown," combined with the New York Times' "Two Classes, Divided By 'I Do,'" painted vividly the challenges that a weak marriage culture creates for poor families. Now I put the question to the students: What might help? How can we better encourage people to get and stay married? A young man raises his hand. "This unit was interesting, but the university should offer whole classes on marriage. A lot of people don't realize how important it is, for their kids and just for having a happy life." Another hand. "They should talk about this in high school, too. It seems like we heard a lot of warnings about drugs and dropping out and safe sex. I don't remember hearing anything about marriage." **Protecting Your Pastor's Marital Fidelity.** Each one of us has a personal responsibility to love the Lord with all of our heart, soul, strength, and mind. But as a local body of believers, each church member has a responsibility to hold all other members accountable to live before God in righteousness so that the church might be holy before the Lord. For every local congregation this accountability should include walking alongside its pastor in order to help him keep his marriage vows before them and the Lord with joy. Love has become a negative percentage, why do we bother to commit  
We've got a long list of excuses, ways we try to justify

Well, I propose to you the truth is, marriage does not have to die

CHORUS

I know you're feeling like it's falling apart and it can't go on anymore

But God is a God who knows how to heal so just give it up to the Lord

And He will restore

He said with this ring I promise, and with I do she said forever

But right now if they're being honest they don't know if they'll stay Together

Let's fast forward to the future after struggling on their own

They finally figured out they needed Jesus in the middle

Now I'm watching God rebuild their home

CHORUS

The enemy tries to come and divide

Trying to get us to give up the fight

But darkness will always lose out to light

'Cause we've got the power of Christ on our side

I see you growing old together

I pray I find a love like yours

So if you're feeling like it's falling apart and it can't go on anymore

God is a God who knows how to heal so just give it up to the Lord

And He will restore

Like it was before

You may have strayed off course

But He will restore

**America's Marriage Problem is Incompetence.** Until the last century, marriage was not an endeavor, but an institution. For better or worse, that institution provided the foundation for American society to go about its business of being productive and raising new generations that would be even better able to enjoy opportunities for life, liberty and the pursuit of happiness. ## **PARTING WORDS**

**Childbearing and Marriage.** Bringing the relationship between childbearing and marriage back into sync among today's twentysomethings will not be an easy task. **Divorce Among Couples of Faith.** For people who really do take their faith seriously, there is a significant drop in risk of divorce. We need to know that faith really does make a difference in our lives and in relationships. – Glenn Stanton, Focus on the Family

**Early sex leads to poorer relationship quality** Researchers have discovered that among low - to middle-income subjects, the speed of entry into a sexual relationship was quite fast - many began having sex within a month of dating. They also discovered that this speed seems to be damaging to couples' relationship satisfaction. (by Nicole King, [Mercator.net](http://Mercator.net))

**What's at stake?** We believe that the strength of a nation depends upon the strength of its families. We've already seen the results of redefining the concept of marriage over the last few decades; do we want to continue experimenting? Are we better off morally and spiritually as a nation? Are our children better off emotionally with the weakening of the family unit? Can our nation survive the social re-engineering of its most basic unit, marriage? We are convinced that America's future will not be bright if we continue allowing gay marriage to undermine and redefine an institution God created. It's time to take a compassionate stand for the real thing. - Dennis Rainey and Bob Lepine

**“The greatest threat** facing the western world is not climate change or global warming,” writes Kevin Andrews. “It is not the continuing financial crisis. Nor is it the threat of radical Islam. The greatest threat is within. It is the steady, but continuing breakdown of the essential structures of civil society – marriage, family and community.” – Kevin Andrews, Member Australian Parliament

### RESEARCH FINDINGS

**For the richer, not the poorer.** They might spout liberal sentiments but it's the affluent who are reaping the benefits of marriage. The tragedy of modern life is that the virtues that contribute to a happy life are increasingly limited by class and economics – certainly between whites and minority populations but also, as recent research has shown, among whites. It's not that upscale whites are intrinsically more virtuous; it's that the moral habits that give rise to a happy life are tied to stable families and larger cultural communities – things that increasingly exist only among the prosperous. **Marriage inequality' is more important than income inequality.** The National Bureau of Economic Research (NBER) has released an interesting new study: Cohabitation and the Uneven Retreat from Marriage in the U.S., 1950-2010. It no surprise that the NBER finds cohabitation more commonplace in America today than in 1950. But the statistics show a revealing difference between socio-economic classes.
