

# GLOBAL ACTION INTERNATIONAL

## MAKING A DIFFERENCE

### Dear Partners,

I am so thankful that I have the privilege of sharing with you all that God has been doing through Global Action International. . We are so grateful for the orphans that have been housed, students being sponsored and receiving education and village outreach with medical clinics. We are thankful for God's goodness in giving Global Action International a great year.

Another great outreach is that of our Vice President, Ken Hoole. He is over our School of Theology and as you see in his article on the other side, he and his brother will be ministering February 7 - 28. We ask for your prayers of blessing and protection.

It is through your faithfulness in giving and prayer that we are able to see great things accomplished and enabling us to make a difference around the world.

Joel & Faith

## ORPHANED AT BIRTH

Six years ago when we were in Kenya Africa visiting our son and ministering in churches we were introduced to a wonderful Kenyan lady who had recently lost her husband. She and her husband were planning to retire and go back to their village but because of her husband's death she had to keep working. During this tragic time of emotional healing she received word that her niece had passed away leaving two-2 babies. She wanted to keep them in the family and felt she should be the one, even tho' physically & financially this would be a burden. Not knowing the future of these children I was able to dedicate these two babies, asking for God's guidance and protection. These beautiful children have now grown but because of the health of their provider she has not been able to work. This lack of finances has kept them out of school. Provision has now been made for them to start school BUT we want to see that they will be able to continue their education. Dwaine E. Lee

**Below is an article by Global Action International's Vice President, Ken Hoole.  
He and his brother, John Hoole, will be traveling and ministering in  
Haiti & Dominican Republic. February 7 - 28.  
Put this on your calendar and keep them in prayer.**

As you read this report my brother John and I are in the Dominican Republic and Haiti. Global Action School of Theology has a strong presence there with nearly 300 students in seven schools. Dr. Estin Jean Jacques is the overseer in Haiti and Dr. James Paula, in the D.R. Through your financial support and our partner Pastors and Leaders there, we have a conservative estimate of 100,000 people being ministered to each week in the towns and villages across the country. We never imagined this would happen, especially this quickly, in just four years. God is good!

Also through your partner giving, we have been able to purchase thousands of dollars of much-needed equipment for ministries around the globe. Many times this equipment is unavailable or too costly to purchase there, or if available, at a much higher cost. When you give, just specify your donation as "Education." You can give direct online at [www.global-action.com](http://www.global-action.com)

Please pray, that we will see God open the door to a great Holy Spirit break-through. This is my seventh visit to Haiti, with each visit becoming even more impacting. For a report, e-mail me at [khoole@globalactionintl.org](mailto:khoole@globalactionintl.org). Or call me after March 2nd at 503- 201-6892 and I will mail you a report.

Together, in prayer, we are making a difference. We love and appreciate you.  
Kenneth Hoole, Vice President-
