

## Refugee Resettlement Task Team 5.4.2019

The warehouse was successfully moved on Friday March 29th. We were very fortunate in that the new tenants, All Around Roofing, Siding and Gutters, helped with the move. They provided vehicles in addition to 6 or 7 guys. They even had a forklift for putting the massive shelving directly into pickup trucks and into their trailers. We were also very fortunate to have the help of 10 people from the district, including myself, and my baby brother. All of us were out of there by 1:30 or 2. Michael Murphy and I had already planned on him leading a group to finish moving on Saturday. But that group wasn't needed!

The other advantage of new tenants helping us move, is that they were very generous on what we were able to leave behind. Both owners were part of the group. The one owner said it was fine to leave the paint of unknown origin, some baby blankets that were nice but not suitable for refugees, junk and so much more.

Our new space is at St Vincent's large warehouse on Edwin C Moses Blvd. We essentially have no walls which is going to be a problem with some of the unstable shelving. I have some feelers out, but do any of you have the skill set or know someone that does, who might be willing to help organize our new space? I am spatially challenge to say the least. There were volunteers at the warehouse unpacking Friday, May 3rd.

Respectfully Submitted,

Linda Brandon
