

# FBC Marriage Ministry Survey

**(Do not include your name on this survey)**

The First Baptist Marriage Ministry would like to know what marital topics are of interest to our married couples. This information will be used to develop events and classes to enrich the relationships of our newly married couples, couples who have been married for several years and couples who have been married for decades.

Please list the topics that you feel will be most beneficial to you as a couple. We would like *both husband and wife to fill out their own form*. For example, topics might include: Some of the issues you are dealing with in your marriage? Topics you are interested in, and relationship skills you would like to develop. **Please do not include your name on this survey.** List one to three topics in order of your preference.

There will be **two boxes** for dropping off the survey. One box will be **located in the church vestibule at the front entrance** and the other box will be **located in the fellowship hall.**

**List your topics below:**
