## ...From the President's Pen

It's always a privilege to address the constituents of the Regular Arkansas Baptist Convention. Approaching the summer months, we are engaged in one of the busiest times of the year for our work. Along with church activities, there will be congresses-local, state, and national. These are the months we have dedicated to the work of Christian education. I shall not tell you how valuable this work is, for the more we know, the stronger we are in the Christian community. I admonish each of you to take advantage of every possibility for learning

that is essential as you travel through life.

I further want to express my deep gratitude to the workers of both our youth department and our Congress. With great necessity they carry the burden of our work for this time of year. Sis. Jackie Washington and her staff diligently put forth great effort to make our young people's convention a success. I hope that you all will take advantage of this time to bring your youth to North Little Rock for a grand time in the Lord. They are anticipating thousands.

Again, I congratulate Rev. G. L. Sanders and his staff for the thought provoking challenge they bring to the Christian Education De-

partment. Our Congress stands to be one of the strongest and largest in Regular Baptist's history. I look forward to see pastors, church leaders and general church members as we engage in the study of God's Word and how it affects the 21st century church.

Finally, I am proud to be a Regular Baptist. First, because of its rich heritage in this state and the enduring legacy that has been left by our forefathers. Second, I am proud because we have remained true to the Word of God when others have not. In conclusion, I am proud because of you; you who have been faithful and true to this convention. I applaud you in Christ for the work that you do.
