Client Quotes 2012

"My consultant was very nice, helpful, and easy to talk to."

"Everything that was offered at the Center was very valuable."

"The most valuable thing I learned was that I am not alone."

"The center exceeded my expectations."

"I learned a lot about my baby's development."

"I felt God when I was at the Center. I feel better walking out than I did when I walked in."

"It was nice to talk to someone, without judgment."

Care Net Pregnancy Center of Thurston County was birthed in August 1985. Beginning as a small grassroots outreach consisting of free pregnancy testing and a few material items for clients, the then known as Crisis Pregnancy Center of Thurston County was established. In 2000 our name was changed to Care Net Pregnancy Center of Thurston County. A building campaign began in 2000 allowed the construction of a new medical building, which opened in 2004. STD testing and treatment has been added, as well as expanding hours to include some evening appointments.

 Changing lives.*

2012 ANNUAL REPORT

Hello,

Each year the board, staff, and volunteers look forward with anticipation at what God will do through Care Net Pregnancy Center of Thurston County. And, 2012 was AMAZING!

We watched with awe as God increased our STD testing and treatment outreach by 60%. 60% more men and women received not only needed testing and treatment, all free of charge, but also encouragement of choosing a healthy lifestyle to avoid the stress and fear of unwanted diseases. We were able to come alongside them to think about their future and determine wise choices to be able to reach their goals.

We were blessed to perform 452 pregnancy tests of which 329 were positive. We were able to invite these parents into our Parenting Support Education Classes to learn about their pregnancy, caring for their newborn, and raising their child. While attending and completing homework clients earned vouchers and were able to redeem those vouchers in our Baby Boutique of new and slightly used items. Knowing this is available is a great stress relief for them. Our men were not forgotten as we were also able to reach out with our Man2Man Program and shared the true meaning of fatherhood in the image of our Heavenly Father.

Pregnancy tests were followed up by first trimester pregnancy confirmation ultrasounds. Again, free of charge. Performing 236 ultrasounds blessed many, many dads and moms. And, it saved 9 lives just seeing the images! Praise our God! These little ones were part of our 145 new lives in Thurston County!

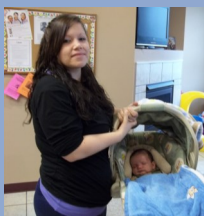

The most exciting part, yes there IS more – we welcomed 22 new brothers and sisters in the Lord during 2012! 22 lives that will meet all of us in eternity – how much better can it get? Lives saved for eternity – Praise Him!

Whew – so much happening and ONLY because of partners like YOU. We thank you from the bottom of our hearts for your standing next to Care Net as we serve as the hands and feet of Jesus meeting a desperate need in Thurston County.

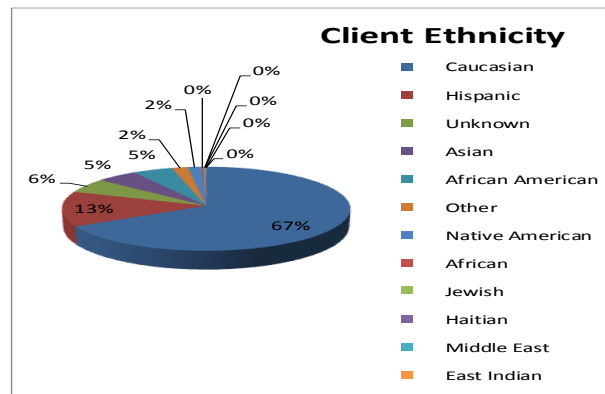

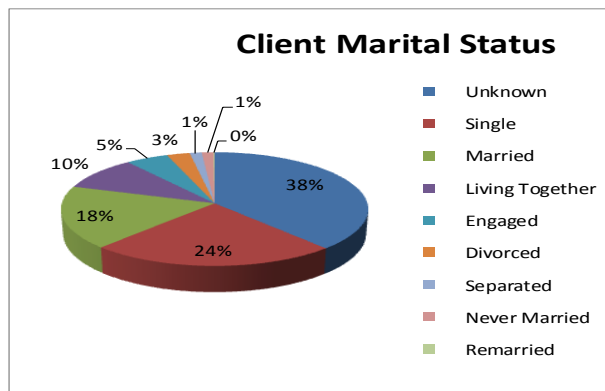

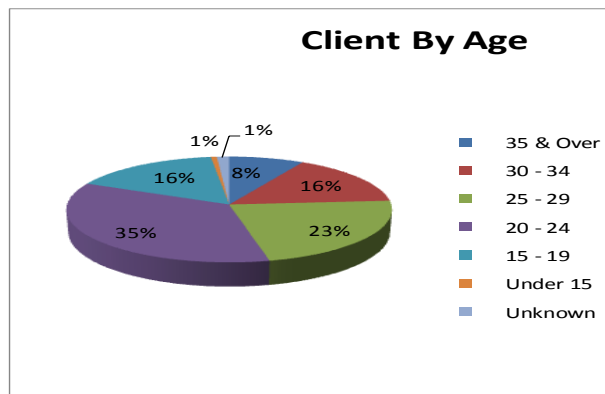

Looking forward to 2013!

Blessings our friends,
Janet – Executive Director

P.S. We hope you are as excited as we are as you review the demographics found in this Annual Report. We are reaching all ages and ethnicities. It is such a privilege to serve so many of God's children!
