

# A TIGNEY SOLUTIONS INSTITUTE COACHES STRATEGIC MASTERMIND GROUP NEWSLETTER

## FROM THE MASTER COACH

Many of you are for the first time building a practice and/or engaging a mentoring type of extension for your life. This building is a dream for many of you. When most people think of dreams, they think of the experience that they have while they are sleeping. However, I understand that the idea of a dream is something that you have to not only sleep on but contemplate and at some point begin to execute.

Do you know what your dream is? Strong question! Well.....do you?

When you engage the idea of walking out your dreams, you must consider several layers of steps in the discovery.

1. Be inclined to understand that each part of the dream can be revealed to you over the course of time so be patient.
2. Pay attention. You are in the midst of a revelation right now. It is important to appreciate each moment in the revealing process. Otherwise you will miss opportunities that are given to you on a daily basis.
3. Be aware and be intentional about that awareness. Awareness is a gift given to every person. Awareness is an underutilized attribute and extremely beneficial in the journey of walking out the dream. Most times we miss significant things that take place in our life because we consider them small or non-important. Each piece speaks to you and your purpose. Don't discount anything.

Coaches, while you are helping others with their dreams, remember not to forget your own. Walk it out!

From Master Coach She

It would be extremely challenging to be a good coach without the experience, maturity and acquired life skills of a journey already in progress. The best coaches are, in essence, guides along the path of a life for those who wish to travel new roads.

In its simplest form, coaching is a powerful conversation between a trained coach and a client who is ready and willing to focus on personal and professional growth. The best coaches are those who are just a few steps ahead of their clients, carrying a big torch to light the way.

Ask yourself.....

Are you using all of your attributes to engage in the coaching journey with your clients?

How much do you value your life experience as you engage your clients?

Remember.....

**THERE IS SO MUCH VALUE IN WHAT YOU HAVE EXPERIENCED IN YOUR LIFE AND PERSONAL JOURNEY. USE IT TO**
