EARS TO HEAR

TECHNOLOGY GUIDE

What device do I need to listen to a podcast?

You can access podcasts for free using apps downloaded on your smartphone or tablet. You can also use your computer's web browser. You can also download many podcasts to play offline. Podcasts are purposefully very accessible – if you can watch a YouTube video, you can play a podcast!

How do I access *Rabbit Hole*?

There are a few options. You can access it via the New York Times at the link below:

<https://www.nytimes.com/column/rabbit-hole>

You can also download a podcast listening app on your smartphone. I recommend Podcast Addict or Spotify. Then, use the search function in the app to subscribe to *Rabbit Hole* and explore even more podcasts.
