We want children to perceive school as a fun and exciting place to be as we prepare them for kindergarten. For these students who are one year away from kindergarten, we focus on school readiness along with social and physical development. Our dedicated teachers will help your child reach his or her full potential and capabilities in fun and inviting classrooms. Staff meets with the PTS kindergarten teachers and develops curriculum around the latest requirements and standards. In addition to academic skills (colors, shapes, numbers, alphabet, spelling reading readiness, early math skills, cutting, and life skills), we also have gym day, cooking activities, special events, field trips, and so much more. The year wraps up with a graduation ceremony in May.
