

Making A Difference

We are grateful to all our partners during this time of the COVID 19 Pandemic. The uncertainty of how this disease is contained and our staying at home policy has been a season of our life we never expected. We, at Global Action International, are doing well and we're thankful for our partners, their health and support during this time.

International Partner reports We want to thank those donors who contributed for the need of food for the orphans of Okeunyi Orphanage & Destiny Development Center, Aba Nigeria. Even though the planted food from the garden was destroyed and the virus has closed the markets, these children will have food

Also our THANKS to those GIVING on GIVING TUESDAY NOW

Just as many countries in the world have been affected by COVID-19. The financial crisis seems to grow exponentially as families continue to stay at home causing many to struggle to get food home for their children.

Promised Land Ministries' School

Many of our sponsored children and their families are also affected by this virus. Their city is in a lock down and has reached a degree of unemployment and poverty as never before.

After taking a survey there are 65 families in desperate need. Let us help these families at this time.

OUR GOAL

**\$50.00 a month for each
family of 6**

**Please if you can,
Do all you can**

**You, OUR PARTNERS Made a Difference
