

Core4 Therapy Group

3280 Blazer Parkway Suite 101 Lexington, Kentucky 40509

Phone: (859)225-5424 Fax: (859)469-8487

Dear Families,

My name is Glenda Cole and I have been providing speech-language therapy services to infants, toddlers, preschool children, and school aged students for 25 years. I am licensed in the state of Kentucky and am certified by the American Speech-Language Hearing Association to provide speech-language therapy. I believe in providing quality services in a loving and caring environment where children experience encouragement and confidence to communicate effectively and build lifelong relationships with others.

I have experience in working with children with a variety of communication delays and disorders including Childhood Apraxia of Speech, Autism, Language Delays, Articulation Disorders, Phonological Disorders, Multiple Disabilities, Dyslexia, and Developmental Delays.

For the current school year, Calvary Christian School has agreed to allow me the opportunity to continue providing speech-language services for students enrolled in the school. I am a partner with Core4 Therapy Group in Lexington, KY and I provide therapy services through several agencies and private schools in Winchester and Lexington. Because of my affiliation with Core4 Therapy, I will be able to bill insurance for therapy services if we are in network with your family's insurance provider. Core4 currently has contracts with Anthem, Humana, and United Health Care insurance companies. Each insurance company and plan offer different co-pays, deductibles, and maximum number of visits per year. We also contract with agencies who bill Medicaid insurances for most plans. If Core4 Therapy isn't in network with your insurance provider, we can provide therapy services based on a private pay schedule.

If you are interested in receiving more detailed information concerning therapy services please feel free to call, text, or email me for further details.

Sincerely,

Glenda Cole, M.A., CCC/SLP
